

## SINGLE-PHASE INVERTER

### ZIGOR SOLAR TL1

#### Single-phase On-grid solar inverters range

##### Description

The ZIGOR SOLAR TL1 inverters combine design and versatility with ease of operation. An outstanding feature of these inverters is their 96% efficiency without transformer.

The ZIGOR SOLAR TL1 range stands out because of its RS-485 communications with the centralised supervision and control system and all its parameters can be configured locally (optional).

They offer a range of input DC voltages of between 120-500 vdc and IP65 watertightness.
