

Guangzhou Hanfong New energy technology Co., Ltd

Company History: Guangzhou Hanfong New energy technology Co., Ltd. is a professional High-Tech modern enterprise, specialized in developing and producing series photovoltaic system. solar panel, fast charger, UPS battery, solar controller, power inverter is our main product. Hanfong new energy technology is subsidiary of Guangzhou Gamatong electric co., Ltd. Gamatong had decades of history in Communication and electric power industry. It is a professional High-Tech modern enterprise specialized in developing and manufacturing and sales founded in 1996. our service and product distribute around the nation, and we always adhere to the idea "sincere teamwork and precision quality" for decades.

Company aggrandizes the strength of research for new products and launched branch "Hanfong" "Winiversal" specialized in lead-acid battery, GEL battery, car inverter, pure sine wave inverter for civil use, power inverter, lead-acid battery, solar panel and solar controller. our product has been widely recognized and praised in the market. "Hanfong new energy, create a bright future".

OUR ADVANTAGE

02

Experienced in doing business with big customers.

01

Have cooperation with a lot of importers in European for more than 10 years.

05

Own designing team for new products development .

03

Quick delivery time for decent orders

04

10 series inverter can be provided.

QUALITY ASSURANCE

Quality assurance should be carried out according to the following rules:

1. The product is guaranteed of replacement, returning and repairing within 7 days after sale.
2. The product is guaranteed of replacement and repairing within 1 month after sale.
3. The product is guaranteed of repairing within 12 months after sale.

If it is not possible to identify the using date of the controller, we would refer to the ex-work date and prescribe 18 months as the warranty period. We need to charge beyond the warranty period. The controller can be repaired for life no matter when and where you use it.

If the controller is damaged by the following causes, we need to charge even if it is in the guarantee period:

1. Do not operate according to the user's manual
2. Use the controller under the condition which can cause the breakdown and aging of the apparatus
3. Improper carrying or storage.

Regarding to the service of replacement, returning and repairing, you need to retreat the product to our company ,and we decide whether to replace or repair after we make clear who should be responsible.

We will not provide any assurance if there is any change of this product.
