

## Pole Array Mounting-330

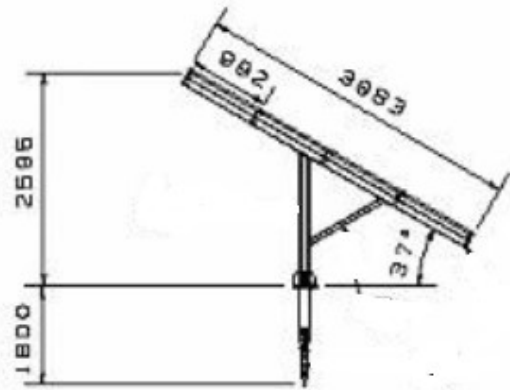

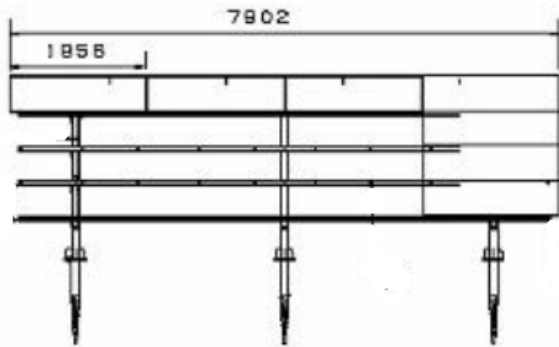

Pole Array mounting-330 is designed for the large photovoltaic system. All components are pre-assembled according to the type of module selected. This guarantees easy installation on site.

立柱矩阵支架330是为大型光伏电站设计的，支架上的配件出厂前都进行了预安装，以便现场安装时节约安装时间。

### Features

#### 产品特点

|   |   |
|---|---|
| Wind Load<br>风载                                     | 55m/s or 200km/hour   |
| Snow Load<br>雪载                                     | 1.5kn/m <sup>2</sup>  |
| Structure<br>钢结构                                    | hot dipped galvanized steel+Anodized Aluminum<br>热镀锌钢+阳极氧化铝 |
| Module mounting area<br>安装面积                        | Standard 15 m <sup>2</sup> to ∞<br>标准15 m <sup>2</sup> 到 ∞  |
| PV peak power<br>光伏峰值                               | 2.4 Kwp to ∞  |
| Total weight for 5KW<br>5KW总重量                      | About 450 kg without module<br>大约450 kg (除组件外)              |
| Tracker type<br>跟踪支架类型                              | Fixed<br>固定   |
| Height<br>高度  | 2.0 m   |
| Distance from Ground to lower Panel<br>组件与地面之间的最小距离 | 400mm→500mm   |
| Tilt angle<br>倾角                                    | 0° → 60°  |
| Panel type<br>组件类型                                  | Any type of PV modules<br>任意类型组件                            |
| Maintenance<br>维护                                   | Free, Panel Cleaning as required<br>支架无需维护，组件要求清洁           |

## Foundation Type

### 基础类型

Concrete 400mm x 500mm  
混凝土L\*400, 500mm 深

Grounding Screw  $\varnothing$  76, 1600mm depth  
地脚螺栓  $\varnothing$  76, 1600mm 深

## Certification & Warranty

### 认证及保证期

Guarantee: Ten years guarantee on parts  
保证期: 10年
