

Cylinder Concrete Foundation Solar Mounting System

Series Name : CF-III

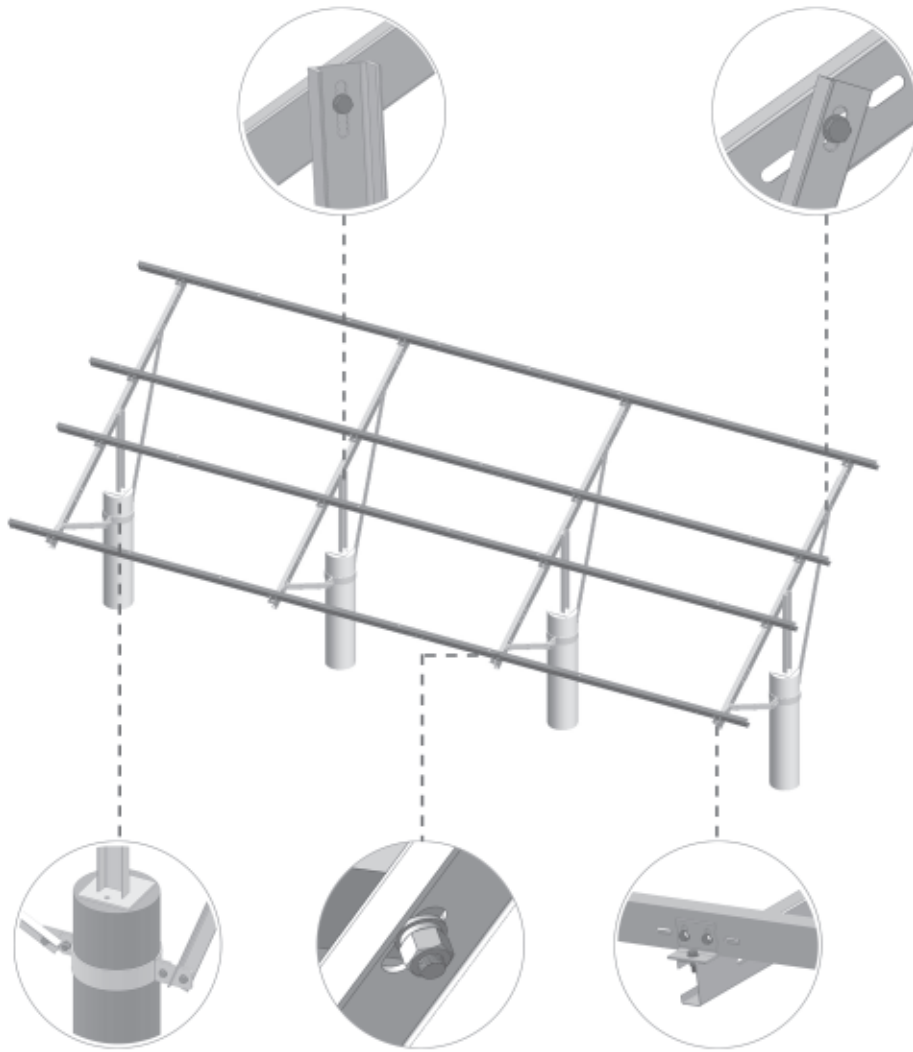

Technical Data

- Solar system: PV plant, PV park, open area ground PV system
- System type: ground concrete foundation
- Material Option: hot-dip galvanized steel, Aluminum ,Stainless Steel
- Max snow load: 1.0 kn/㎡
- Max wind load: 30 m/s
- Mounting angle: customized design; fixed
- Module: framed crystalline module, unframed thin film module
- Module connection: no clamp required, module fixed directly on structure
- Average thickness of zinc layer: up to 80 um or customized

Features

- Easy & quick installation
- Robust, stable & durable
- Fit to shallow, sea beach site
- Fit to the country where concrete cost is low
- Maximum module array vertically & horizontally
- 10 years durability warranty
- 25 years anti corrosion warranty
