

# Pile Driven Solar Mounting System

Series Name : PF-I

## Technical Data

- Solar system: PV plant, PV park, open area ground PV system
- System type: ground pile-driven
- Material Option: hot-dip galvanized steel, Aluminum ,Stainless Steel
- Max snow load: 1.0 kn/ m<sup>2</sup>
- Max wind load: 35 m/s
- Mounting angle: customized design; fixed
- Module: framed crystalline module, unframed thin film module
- Module connection: no clamp required, module fixed directly on structure
- Average thickness of zinc layer: up to 80 um or customized

## Features

- Quick & easy mounting
- Single pile system, shortened pile driven time, total installation time & cost
- Fit to soft grassland, few stone & rock, neutral soil condition
- Maximum module array vertically & horizontally
- 10 years durability warranty
- 25 years anti corrosion warranty
