

Trapezoid Metallic roof system-Tiled

10 YEARS WARRANTY
25 YEARS SERVICE LIFE

The most simple and cost-effective solution for trapezoidal sheet roofing.

Trapezoid metal sheet roof is the most common type for commercial and residential use. The tiled metal roof system only contains 4 different components.

The innovative and patent design of fixtures system makes the rail quick to locate and very steady installation on the sheet roofing.

Model NO.	SC-VRS2-1
Design standard:	JIS C 8955:2001 GB 50797-2012 GB 50009-2012 Customized
Wind load:	42m/s
Snow load:	1.4KN/m2
Tilt Angle:	Tiled Customized
Clamp tension:	≥500N
Waterproof:	EPDM rubber pad Silicone sealant
Panel Orientation:	Portrait / Landscape
Materials:	Al6005-T5/SUS304
Surface treatment	Anodized

Your advantages:

1. Patent design of EPDM rubber pad featured with triple waterproof performance.
2. Adopt silicone sealant to enhance the waterproofness and structure stability
3. Optimize the design to distribute load into roof of metal sheet according to the mounting environment.
