PRODUCT DATA SHEET

PMT CARPORT DOUBLE

PMT CARPORT DOUBLE

A cost-effective all-rounder created by a specialist in photovoltaic mounting solutions. Its innovative CTRO construction provides unconditional protection from the elements for all vehicle types, coupled with efficient power generation.

Thanks to the tried and tested foundation pile technique, the PMT Carport Double can be used on existing parking areas in a very short amount of time, without any complex surface interfaces or expensive foundation works.

The sleek V-shaped pipe structure provides a comfortable, spacious entrance profile and a high level of safety through the integrated collision protection.

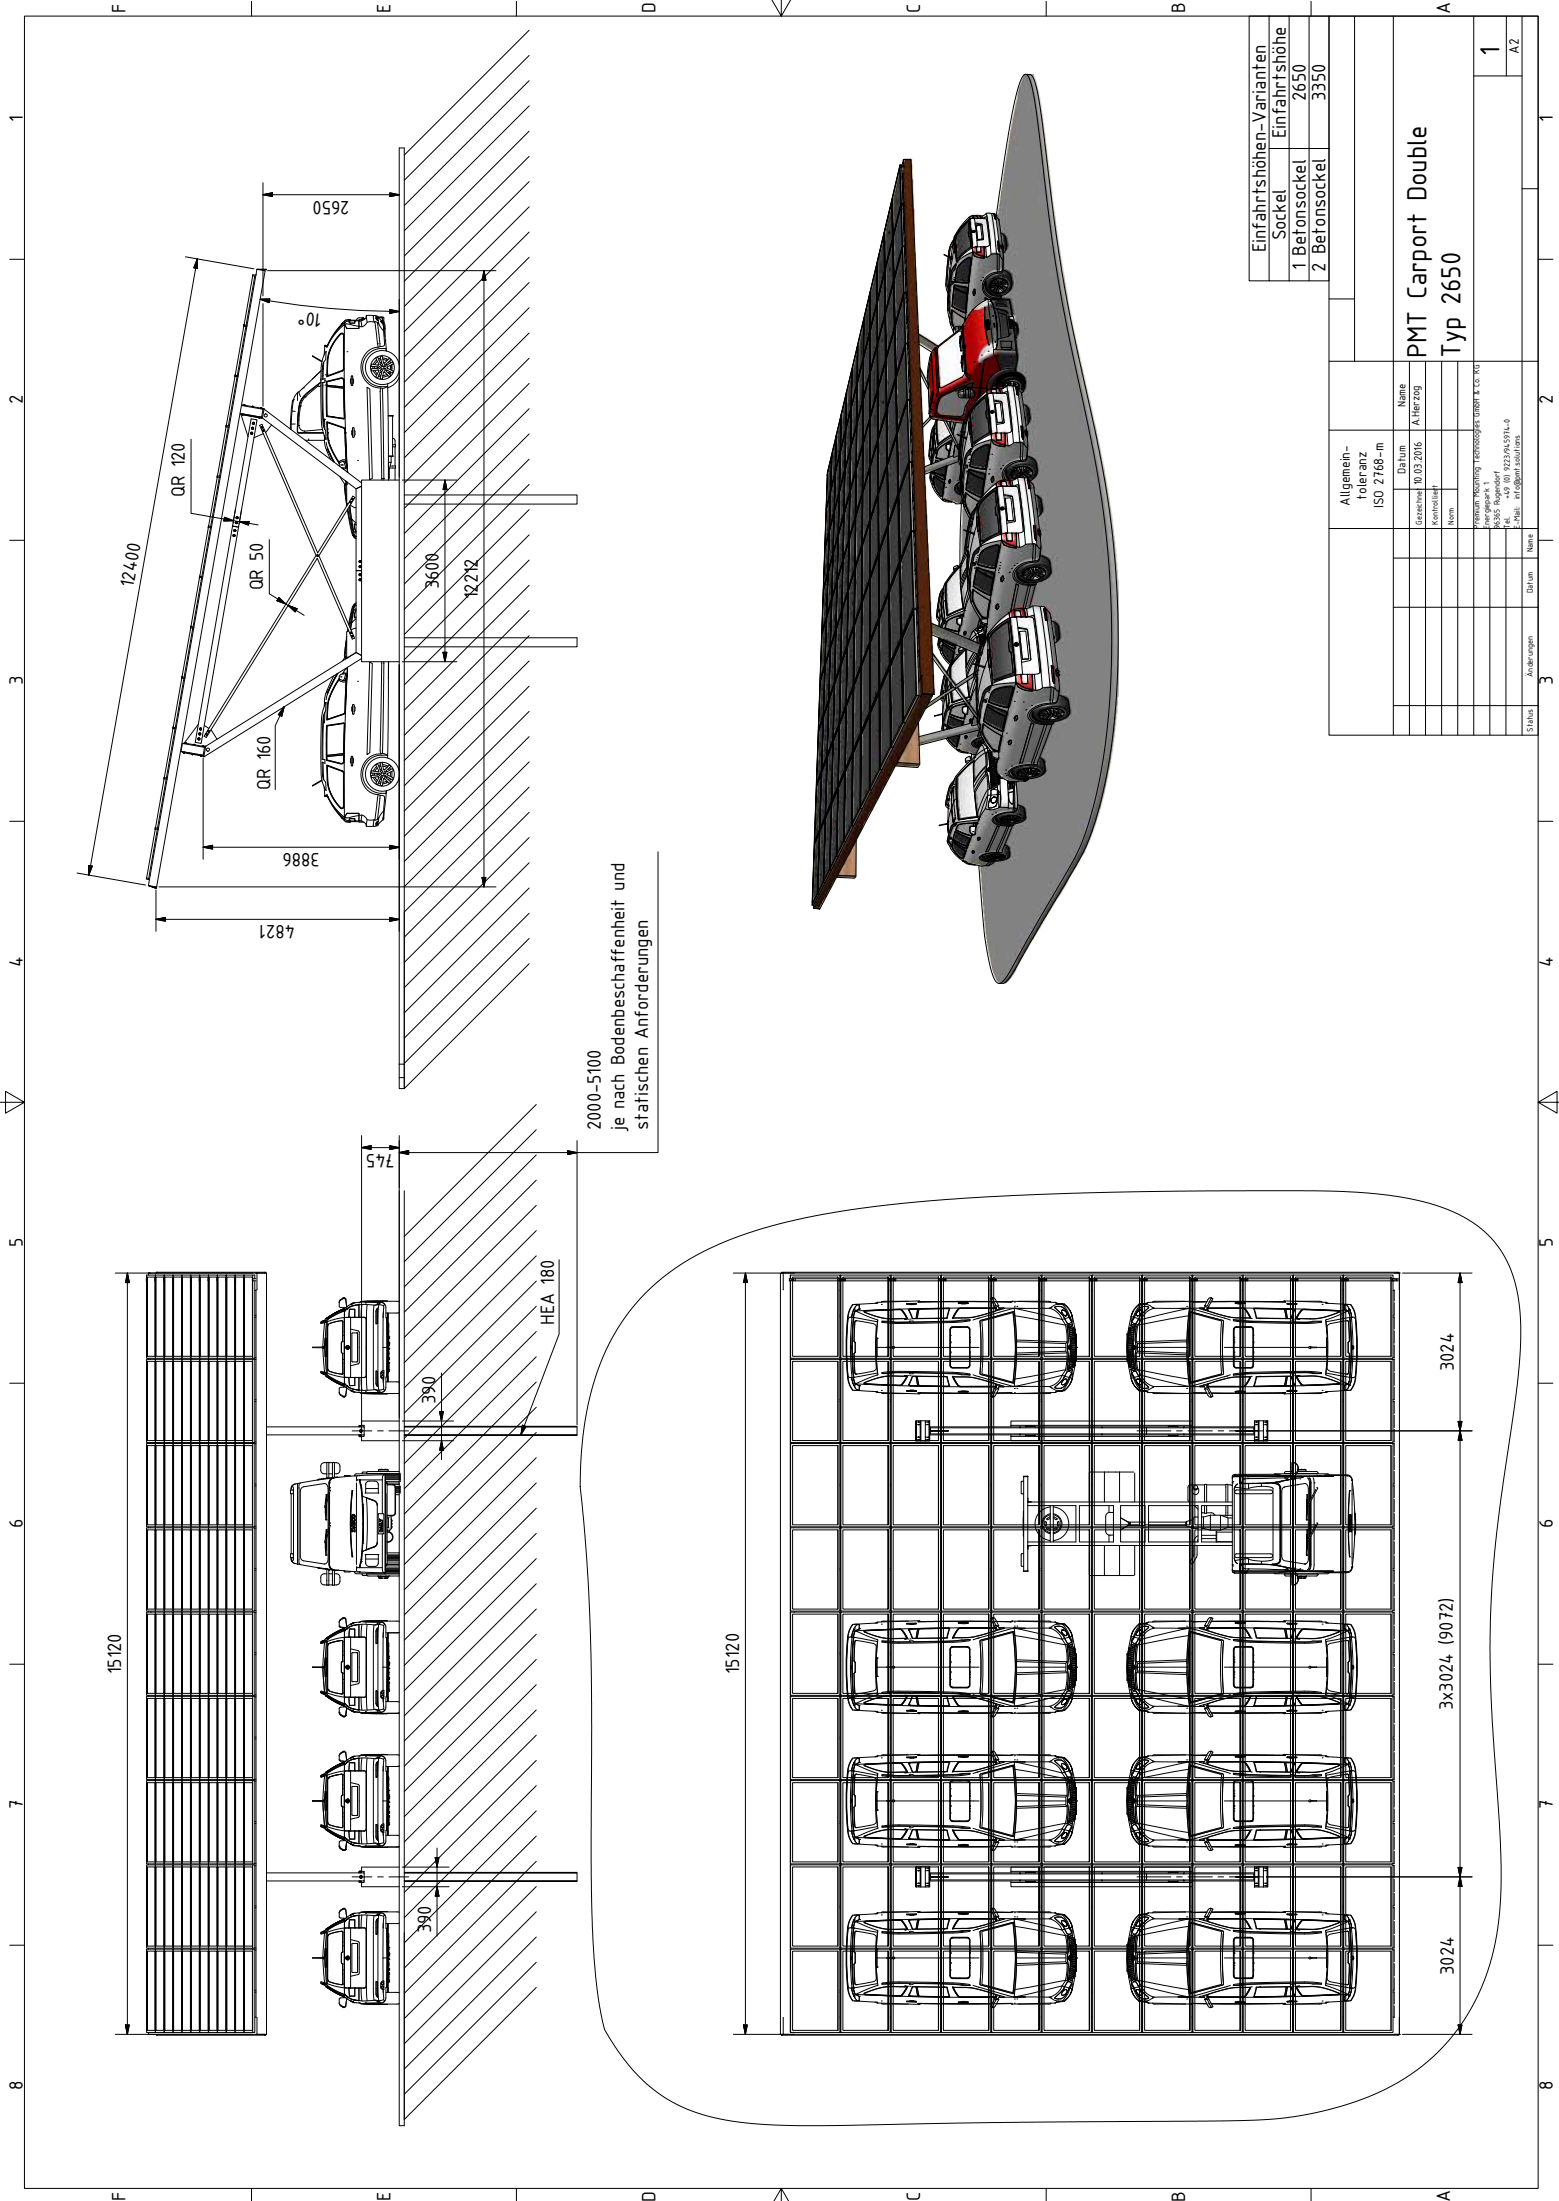

SIMPLY THE BEST

- › Can be installed in existing parking areas without the need for any structural work thanks to our pile driving process
- › High parking comfort thanks to slim V-tube construction
- › Quick and easy assembly for maximum construction efficiency
- › Long-lasting and corrosion-proof
- › Smart cable integration
- › Lightning protection system can be integrated
- › Fully trained PMT staff will take care of the entire installation process
- › Structural design certificate in accordance with the Eurocodes and national appendices
- › An extensive set of accessories supplied, including roof drainage, snow guard, charging station, etc.
- › Can be used with or without photovoltaics
- › The design can be tailored to your corporate identity

TECHNICAL SPECIFICATIONS

	Parking spaces	10 cars
	Entrance height	2.65 m / 3.35 m (1 base / 2 bases)
	Parking space width	Customised
	Roof pitch	10°
	Roof measurements	12.40 m x 15.12 m
	Roof area	187.5 m ²
	Number of modules	108
	Module positioning	9 horizontal, 12 rows
	Collision protection	10 kN for car weighing up to 3 tons
	Cable routing	Integrated

The assembly instructions must be observed during assembly. This manual can be found under www.pmt.solutions/en/service-center/downloads.html or directly scan the QR code with your smart phone. (Requirements: Your mobile terminal must be equipped with an appropriate app)
