

## Single Pile System VGPBE2

Versolar's single pile systems are robust and simple. It optimizes the traditional design with different steel posts applications, realizing high cost-performance.

### Product Features

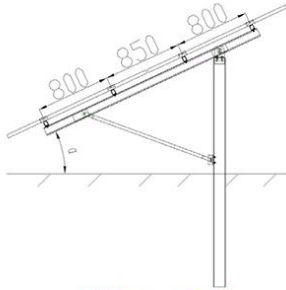

- Cost competitive: all components are in standard sizes & mass produced
- Free welding: all components connected with fasteners
- Easy installation: simplified structure, could be pre-assembled
- Hot-dip galvanized: high corrosion resistant
- Adaptable for all kinds of soil condition
- Recyclable & zero pollution
- Long service life

**15**  
YEARS  
GUARANTEE  
for produced system

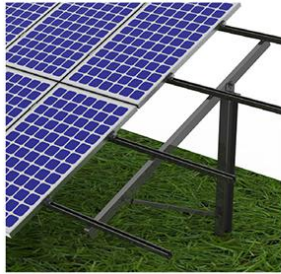

**30**  
YEARS  
GUARANTEE  
for designed system

### Technical Data

System type	Single pile system (H-shape post)
Inclination	10°~35°
Module arrangement standard	Portrait / landscape
Max.wind speed to withstand	0.75 kN/m <sup>2</sup>
Max.snow pressure to withstand	0.45 kN/m <sup>2</sup>
Temperature bearing	-20°C~+60°C

H-Shape Post
