## **Specifications**

| Nominal voltage   | 12V                 |          |         |                 |        |                 |                       |
|-------------------|---------------------|----------|---------|-----------------|--------|-----------------|-----------------------|
| Rated capacity    | 100hr rate (1.80    | OV/cell) | 20hr ra | te (1.80V/cell) | 5hr Ra | te (1.70V/cell) | 1hr Rate (1.60V/cell) |
| (27° C)           | 280Ah               |          |         | 240Ah           |        | 195Ah           | 148Ah                 |
| Dimensions        | Length              | Width    |         | Height of       | case   | Height to       | terminals             |
|                   | 527 $\pm$ 2mm       | 287±2    | 2mm     | 235±2r          | mm     | 257±2           | mm                    |
| Weight /Kg (lbs)  | 79.7 Kg (175.71lbs) |          |         |                 |        |                 |                       |
| Type of Terminals | DT                  |          |         |                 |        |                 |                       |

## **Technical Characteristics**

| Design Life                       | 700 cycles acc   | ording to IEC 254-1 with 75 % DOD  |  |  |  |  |
|-----------------------------------|--|------------------------------------|--|--|--|--|
| Plate                             | Grid plate construction consisting of a lead calcium alloy |                                    |  |  |  |  |
| Container N                       | laterial   | ABS-UL94HB                         |  |  |  |  |
| Electrolyte                       | Туре   | Sulfuric Acid Thyrotrophic gell    |  |  |  |  |
| Vent                              |  | Self-Sealing (2 PSI Operation)     |  |  |  |  |
| Type of Plates/Alloy              |  | Flat Plates/Lead-Calcium-Tin Alloy |  |  |  |  |
| Type of Sep                       | arator   | PVC                                |  |  |  |  |
| Operating T                       | emperature Range   | -40° C to +55 ° C                  |  |  |  |  |
| Charge Voltage @ 77 °F ( 25 °C) * |  |                                    |  |  |  |  |
| Cycle use                         |  | 2.40-2.45VPC                       |  |  |  |  |
| Standby us                        | е  | 2.25-2.30VPC                       |  |  |  |  |
|                                   |  |                                    |  |  |  |  |

## **Charging temperature compensation**

0.028 VPC for every 10 $^\circ$  F (5.55 $^\circ$  C) above or below 77 $^\circ$  F (25 $^\circ$  C) (add 0.028 VPC for every 10 $^\circ$  F (5.55 $^\circ$  C) below 77 $^\circ$  F and subtract 0.028 VPC for every 10 $^\circ$  C above 77 $^\circ$  F).

Storage time at 20℃ 12 months

<sup>\*</sup> Do not install or charge batteries in a sealed or non-ventilated compartment. Constant under or overcharging will damage the battery and shorten its life as with any battery.

## **Battery Dimensions**
