

K2 A-Rack/P-Rack System

Solution for small ground-mounted projects and off-grid systems.
Pre-assembled components for 15°, 20° or 25° elevation.

System-Highlights

Universal use

- Suitable for almost all floors
- No planning necessary
(Assembly packages for 14 - 16 modules)

Easy transport

- Packed as pallet goods and transport on pick-up vehicles possible (max. rail length 1.9 m)

Different Inclination

- Flexible use by sawing the support struts to size
- Inclination of 15°, 20° or 25° possible -
with only one set

P-Rack: with raised elevation

- Splash water protection of the modules
- Higher incidence of light on the substrate
