Geco Solar Carport System

GSCS-AL/GL

Product Features:

- The structures are made of high quality aluminum alloy and hot dip galvanized steel.
- The performance of the corrosion resistance is good.
- It is 100% water proof.
- It looks beautiful, reliable and durable.
- It is easy for installation and convenient for parking cars.

Foundation:	Chemically planted bar
Module specification:	Based on customer requirement
Module arrangement:	Landscape / Portrait
Maximum Wind Load:	40 m/s(customizable)
Maximum Snow Load:	1.4KN/m ² (customizable)
Material:	Aluminum and Steel
Installation tilt:	Based on customer requirements
Surface treatment:	Anodizing and Hot dip galvanizing
Design life:	25 years
Warranty:	15 years
