

## Standard Ground Mounting System

Aluminum ground mount, optimized for lightweight, quick and efficient installation with flexible on engineering upon site conditions. Optional on foundation by ground screw or concrete. Maximize pre-assembled before shipment

### Technical features:

Product name	Standard ground mounting system
Application	Flat concrete roof, open terrain
Inclination	Customized
Material	AL 6005-T5, SUS 304, Q235
Finish	AL 6005-T5 Anodized, Q235 Hot-dip galvanizing
Module orientation	Landscape or Portrait

## 1 Assembly

Ground mounting system has been maximized pre-assembly before shipment, which make the installation more convenient.

N-Type

W-Type

## 2 Pre-Assembly

Depending on the different design conditions, pre-assembly support is generally designed into the following two shapes:

The N-Type pre-assembly support is mainly used for the small wind & snow load condition projects. (2-4 columns)

The W-type pre-assembly support is mainly for the 4-5 columns wind & snow load condition projects. We will add cross support to make the structure stronger if the ground height is higher or wind & snow load is larger.
