<b>Material</b> Aluminium EN AW-6005 T5 Fasteners A2 Quality Stainless Steel 304	
<b>Standard</b> Japan JIS C 8955:2011 ASCE 7-10 Malaysian Standard 1553-2002 BS EN 1991-1-4-2005	

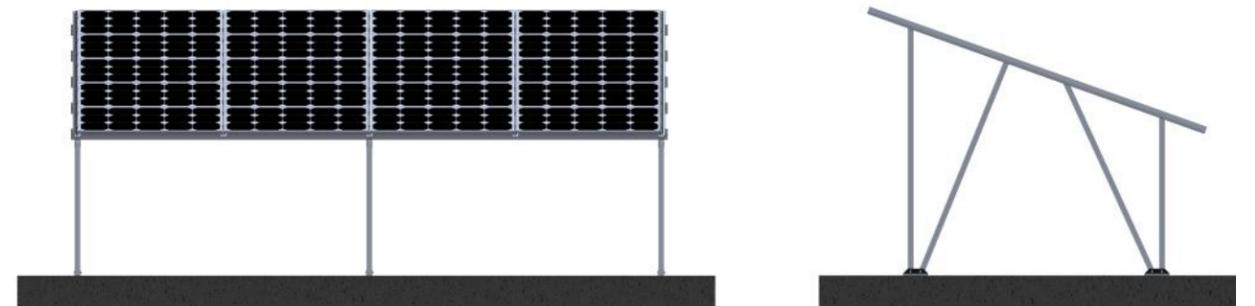

Application:

### Structure Details

### Features

Stylish car parking and electric charging station in front of your door. Effectively using existing parking space to protect your car from the influence of weather. It's streamlined design makes it the ideal choice for presenting environmentally friendly images or acting as a charging station for electric vehicles.
