

5MWh ESS container

- **High Density:** A single container can store up to 5.015 MWh of energy, saving space.
- **High Safety:** Three-tier fire protection at the PACK, cluster, and cabin levels ensures safe system operation.
- **High Efficiency:** Intelligent cooling design ensures reliable energy conversion.

REL5000 Liquid-cooling container

Battery type(Ah)	LFP-314
System configuration	1P416S*12
Rated energy (MWh)	5.015
Rated voltage (V)	1331.2
Dimensions L*W*H(mm)	6058*2550*2896
Weight (t)	~48
IP level	IP54
Corrosion resistance	C5
