

Solar Cable Tray

Our solar cable tray is designed to efficiently organize and protect DC/AC cables in photovoltaic systems. Made from carbon steel, stainless steel or aluminum, it offers excellent corrosion resistance and long-term durability in outdoor environments. The open-structured design ensures easy installation, heat dissipation, and maintenance, making it ideal for ground-mounted and rooftop PV installations.

Optional covers, connectors, and support accessories are available to meet different layout and routing needs.

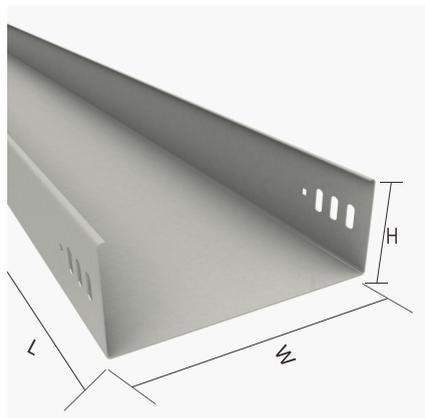

Clip

Reinforcement Strip

Material	Dimension (mm)				Color
	H	W	L	Wire Dia	
Electro-Galvanized Hot-Dip Galvanized Stainless Steel Powder-Coated	50	50/100/150/200/300 400/450/500/600	3000	3.5-6	Silver

Self-Drilling Screw

Material	Dimension (mm)				Color
	H	W	L	Thickness	
Hot-Dip Galvanized Steel	300	150	3000	1.0	Silver
Zn-Al-Mg Coated Steel	200	100	3000	1.0	
Aluminum Alloy	100	50	3000	0.6	
Stainless Steel	50	50	3000	0.6
