

AGRIVOLTAICS SOLAR MOUNTING SYSTEM

Aluminum Agrivoltaic Mounting Structure

Components

Ground Screw Pile

Rail

Rail Connector

H-Connector

Base

Rail Block

Specifications

Material	AL 6005-T5 & SUS 304
Coating Thickness	AA10-12, higher standards available upon request
Wind Speed	70m/s (up to 316.8Km/h 196.9mph)
Standard	AS/NZ1170.2:2011/JISC8955-2017/ASCE7-10
Corrosivity Category	C3, higher standards can be customized

Features

- 1 Optimized for dual use: allows crop growth / light transmission
- 2 High-strength aluminum alloy, durable & long lifespan
- 3 Non-intrusive installation
- 4 Quick & easy assembly
