

CONTAINER SOLAR MOUNTING SYSTEM

Specifications

Material	AL 6005-T5 & SUS 304
Coating Thickness	AA10-12, higher standards available upon request
Wind Speed	70m/s (up to 316.8Km/h 196.9mph)
Standard	AS/NZ1170.2:2011/JISC8955-2017/ASCE7-10
Corrosivity Category	C3, higher standards can be customized

Features

- 1 Maximizes container rooftop space
- 2 Portable & flexible deployment
- 3 Quick installation & low maintenance
- 4 Enhances renewable energy generation in off-grid or mobile applications
