AGRIVOLTAICS SOLAR MOUNTING SYSTEM

Steel Agrivoltaics Mounting Structure

Components

Rail

Bracing Structure

Mid Clamp

End Clamp

Specifications

Material	Carbon Steel
Snow Load	1.6 kN/m ²
Wind Speed	70m/s (up to 316.8Km/h 196.9mph)
Standard	AS/NZ1170.2:2011/JISC8955-2017/ASCE7-10
Corrosivity Category	C3, higher standards can be customized

Features

- 1 Maximizes land use efficiency
- 2 Strong structural stability
- 3 Flexible layout for different terrains
- 4 Supports larger spans and taller structures, more cost-effective than aluminum structure.
