Geco Ground Mounting System

Steel Ground Mounting System GGMS-GS

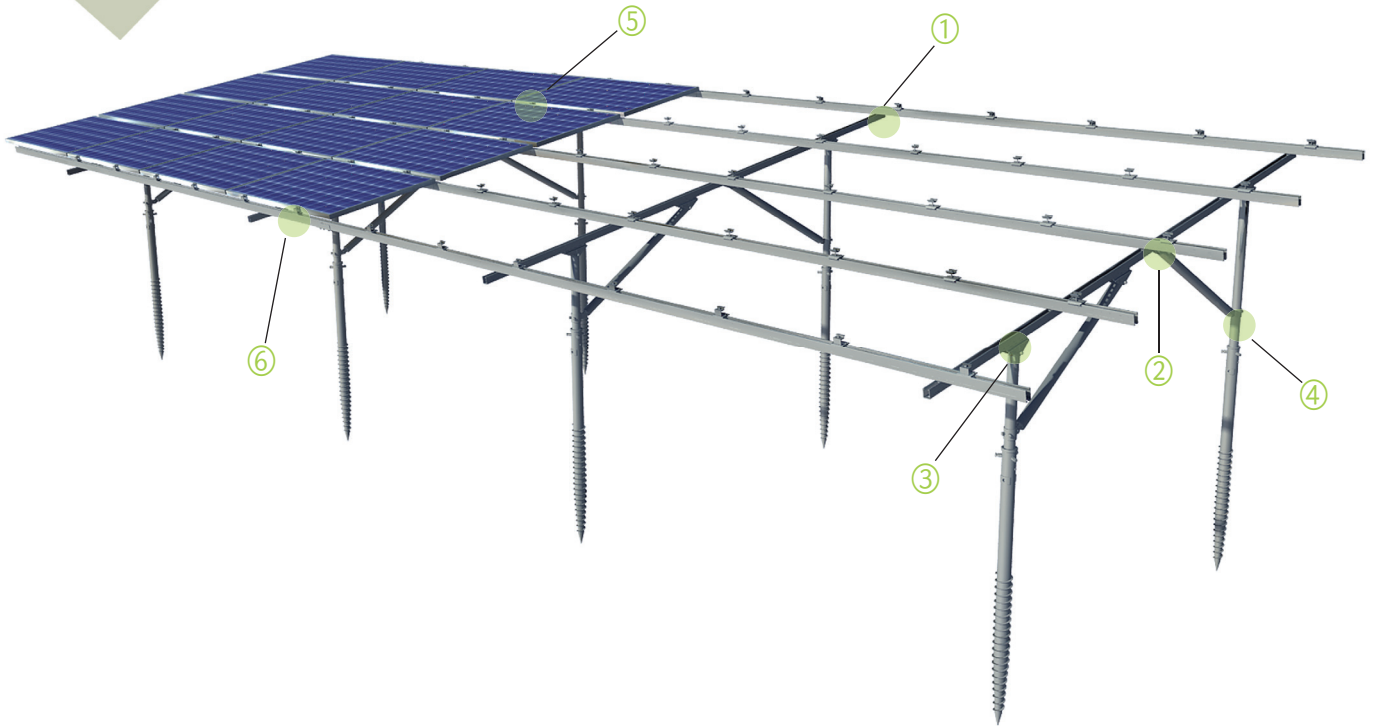

Product Features:

- **M**ade of hot dip galvanized steel with surface treatment, strong anti-corrosion, adapted to extreme climate condition;
- **P**reassembly in the factory, lower installation time and cost at site;
- **I**t is strictly tested for safety by mechanics calculation and simulation software;
- **W**idely applicable to complex terrain.

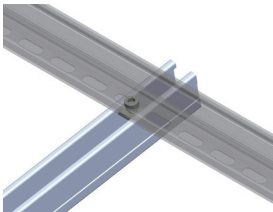

Technical Parameters:

Module specification:	Based on customer requirement
Module arrangement:	Landscape / Portrait
Installation tilt:	Based on customer requirements
Foundation:	Ground screw/ Bored Concrete Pile/Concrete
Maximum wind speed:	40 m/s
Maximum snow load:	1.4KN/m ²
Material:	Steel
Surface treatment:	Hot dip galvanized
Design life:	25 years
Warranty:	15 years

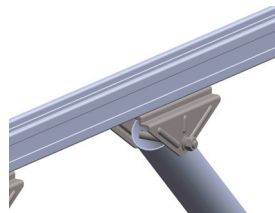

Preview

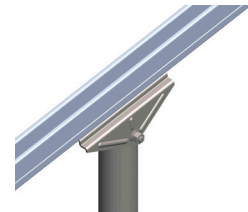

Connection

① Connection of main rail and sub-rail

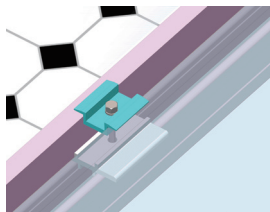

② Strut and hinge base

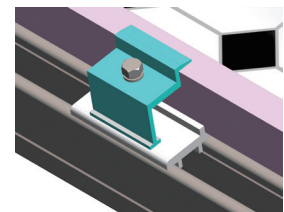

② Assembly of hinge bar

④ Assembly of ground screw

⑤ Assembly of middle clamp

⑥ Assembly of side clamp

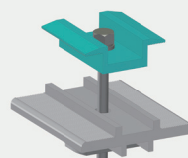

Components

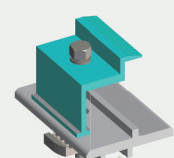

Hinge base

Connector with 2 puller bolts

Middle clamp

Side clamp
