

380W | 410W

The ELITE SOLAR Half cut series is the most powered module with highest efficiency. Multibus-bar permit to reduce the degradation of the cells and increase the power generated from sun.

Feature

Durability Against Extreme Environmental Conditions

High salt mist and ammonia resistance
Certified by TUV NORD

PID Resistance

Excellent Anti-PID performance guarantee limited power degradation for mass production. (Potential Induced Degradation) under the test conditions.

High Efficiency

Higher module conversion efficiency (up to 21.00%)
benefit from half cell structure (low resistance characteristic).

Low-light Performance

Advanced glass and cell surface textured design ensure excellent performance in low-light environment.

Severe Weather Resilience

Certified to withstand : Wind load (2400 pascal)
and snow load (5400 pascal).

About Elite-Solar

Engineering of elite-solar gmbH recherche and development allow to achieve the maximum efficiency.
By the HC series, elite-solar are positionned at the leader on the market with innovation and commitment to the industry.
