

Medium-sized horizontal fully automatic balers

Scope:

Medium-sized automatic horizontal model, widely used in carton factory, packaging factory, printing factory, paper-making factory, waste disposal station, waste recycle station, logistics and other places that can generate plenty of waste materials and have a request unmanned operation; Specially for different leftover material from Waste paper boxes, cardboard, die-cutting machine and plastic, PET bottles, plastic film, straw, cloth, palm fibers, fiber, cotton and other loose materials .

PRODUCT INTRODUCTION

It adopts three sides shrink mouth pull-back , automatic shrink tightening and loosening to make press force be steadier.

Touch screen control with PLC program, operated simply and equipped with automatic feeding detection, can realize unmanned operation.

Special automatic strapping device with simple structure ,fast and stable ,low failure rate and easy to maintain.

Start -up motor and pressurized motor in order to save electricity energy and cost. Inspect failure and display automatically ,improving the efficiency of detection, Bale length can be set freely and records bale numbers accurately.

Special recessed multipoint blade design to improve cutting efficiency and extend the working life of blade.

It has three phase voltage and safety interlock device, simple operation, can connect with air-blower or conveyor line to feed material directly, improve working efficiency.

DATA SHEET

Model	Hydraulic power (Ton)	Bale Size (W*H*L) mm	Feed Opening Size (L*W) mm	Bale Density (Kg/m ³)	Bale Lines	Output (Ton/Hr)	Power (Kw/Hp)	Machine Size (L*W*H) mm	Machine Weight (Ton)
JPW80QT	80	800*1100*(300-1800)	1500*800	450-650	4	4-7	30KW40HP	7600*3250*2300	9.5Ton
JPW100QT	100	1000*1100*(300-2000)mm	1850*1000mm	500-600	4	7-10	45KW60HP	8600*4050*2400	13.5Ton
JPW120QT	120	1100*1100*(300-2100)	1800*1100mm	550-650	4	9-13	60KW80HP	9300*4330*2400	17Ton

* The above parameters can be customized to customer's requirement.
