

## ECO70TC

- Bale weight output 70 kg
- Saves handling time with multiple chambers: free to load whilst other chamber bales
- Roller guided for ease of movement
- Ideal for locations with height restrictions
- Retaining Claws to reduce spring back
- Efficient way of keeping different materials segregated
- Add up to 6 chambers
- Simple and easy to use

The Eco70TC gives customers the facility to bale multiple materials at once and allows you to have that extra capacity. Very easy to operate, yet highly reliable and great performance comes as standard from the Eco70 TC. Perfect for positioning in environments with height restrictions. Standard fit retaining claws ensure that the material stays within the bale chamber. Saves lots of time as one chamber will always be free to load.
