Introducing the : MHM POWERBALE 50XL Semi-Automatic Horizontal Baler

General Description:

This Semi-Automatic Horizontal Baler has the smallest footprint in the POWERBALE range. It is ideal for sites with a limited space, where maximum performance is required.

It can produce bales sizes of **1200mm x 1100mm x 1100mm** (L x W x H) with weights up to **700kg** depending on the waste stream. Baling performance is up to 2.4 tonnes of material per hour.

The 50XL has got "**Full Bale Eject**" system through hydraulic portcullis door.

Fitted as standard are **Replaceable Wear Plates** inside the baling chamber which guarantees an exceptionally long serviceable life to the machine. Optional **Dual Product Switch** allows to change baling capabilities for different products to ensure consistency of bale weights.

Simple and clean control panel with large LCD screen make machine easy to operate.

Large 1350mm x 1100mm feed aperture

Technical Specification:

Bale Size Nominal:	1200mm x 1100 x 1100mm (L x W X H)
Bale Weight:	up to 600kg (dependent on waste stream)
Compaction Force:	50 Tonnes
Cylinder Bore:	180mm
Motor Power:	11kW
Power Supply Rating:	32 Amp 3P + N + E, D type breaker
Average Cycle Time:	40 Seconds approx
Bale Discharge:	Full Eject
Bale Chamber End Door:	Hydraulic Portcullis
Wire/Tape Tying:	5 Horizontal Wire Ties
Bin Tipper Range:	240-1100 ltr (optional)
Bale Made Light:	Standard
Baling Wire or Tape Holders:	Standard
Automatic & Manual Cycle Operation:	Standard
Bale Chamber Wear Plates:	Standard
Shear Blades:	Standard
Dolav Bin Tipper	Optional
Dimensions:	
Loading Aperture Nominal:	1350 x 1100
Loading Height:	1650mm
Overall Baler Length:	5500mm
Overall Baler Width:	1660 (without Bin Lift)
Overall Height:	2570mm

Options available:

- Custom Hopper Designs
- Conveyor Feed
- Bin Lift
- Bale Eject Beacon
- Retention Claws
- Power Pack Cover
- Hydraulic Clamp on Front Do
- Dual Product Switch
- Personal Safety Bar/Contact
